

## ***Rebuild Colorado Service for Small School Districts: Energy Management Consulting Services***

Are you a school district with less than 500 students? Do you have high energy costs, comfort problems or maintenance problems? Do you lack energy management expertise?

If so, *Rebuild Colorado* can help! Hire an energy management consultant to perform up to \$2,500 worth of services. A consultant can come visit your schools and work with your staff. Learn how to make your buildings operate more efficiently. Get cost and savings estimates of energy efficiency improvement opportunities, and a plan to make those projects a reality.

*An energy management consultant can help you round up savings to get better buildings*

### **Our free services:**

- Up to \$2,500 to pay an energy management consultant that you hire to work with your staff and your buildings
- Help contracting with an energy management consultant, including a list of interested energy consultants, a sample purchase order and scope of work

#### **Call today!**

303-894-2383, or 800-632-6662  
e-mail [rebuildco@state.co.us](mailto:rebuildco@state.co.us)

### **What can an energy management consultant do?**

- ✓ Analyze utility bills
- ✓ Benchmark buildings
- ✓ Develop an action plan and funding strategy to upgrade equipment
- ✓ Evaluate retrofit opportunities
- ✓ Identify and implement low-cost/no-cost improvements
- ✓ Train maintenance/custodial staff in more efficient operation of equipment
- ✓ Provide data and a written description of progress and achievements for *Rebuild Colorado* to use in the web site and educational literature

### **What is required of the school district?**

- Hire the energy management consultant
- Negotiate consultant's contract
- Assist consultant by providing utility bills and rates, providing access to buildings and maintenance/custodial staff
- Respond to information requests from consultant
- Summarize contributions made by district staff

### **How will you choose a qualified energy consultant?**

*Rebuild Colorado* has developed a list of several interested energy consultants that meet our minimum qualifications. You may select from those, hiring the one that best meets your needs, or find another energy consultant that meets our qualifications criteria. Contact us for more details.
